Professional Summary

Skilled developer, with a strong desire to gain experience and develop skills in software development. Proficient in HTML, CSS, JavaScript, Typescript, React and Node.js, showcasing excellent problem-solving abilities, rapid learning, and adaptability to emerging technologies. Currently undergoing training to become a Software Tester, further enhancing my expertise in software quality assurance. Enthusiastic about software development and excited to work in a fast-paced and dynamic environment, leveraging my skills to bring the organization's digital vision to life.

Career Objective

To leverage my skills and knowledge to secure a junior developer role, make a significant contribution to the organization's success, and progress to a senior developer position. Committed to continuous skill growth, learning new technologies, and expanding my professional network.

Professional Experience

Software Developer (Internship)

SAIL Innovation Lab

- Translate design concepts into user-centric web application
- Develop responsive and adaptive designs for optimal viewing across various devices and platforms
- Foster collaboration across teams to achieve unified project goals
- Conduct thorough testing and debugging to maintain code integrity

Frontend Developer

HNG Internship Program

- Developed responsive user interfaces using React.js for various web applications, enhancing user engagement and experience.

- Collaborated with UX/UI designers to translate design concepts into functional and visually appealing interfaces.
- Participated in feature development, enhancements, and maintenance of web applications, ensuring optimal performance and user satisfaction.
- Conducted code reviews, debugging, and troubleshooting to maintain code quality and stability.
- Stayed updated with the latest trends in web development, proactively suggesting improvements to the technology stack and development processes.

Frontend Developer

CamelCase Technology

- Collaborated with senior developers to build and maintain web applications using React and TypeScript (TSX).
- Implemented responsive user interfaces, ensuring compatibility across various devices and browsers.
- Contributed to code reviews, debugging, and troubleshooting, enhancing code quality and performance.
- Participated in Agile development processes, attending daily stand-ups and sprint planning sessions.
- Worked closely with UX/UI designers to translate design concepts into functional interfaces, improving user experience.
- Utilized version control systems (Git) to manage the codebase and collaborate effectively with team members.

Projects

- **Tech Goal Website:** <https://goals-theta.vercel.app/>
- **Rock, Paper, Scissor Game Web Development:** <https://syntax-project.vercel.app/>
- **An e-commerce website:** <https://accessoryden.vercel.app/>
- **E-commerce Website Project:** <https://reactshop-eight.vercel.app>

Technical skills

- Programming Languages: JavaScript
- Web Technologies: Proficient in HTML, CSS, responsive web design, React, Node.js
- Version Control: Git
- Tools: Visual Studio Code/ CI/CD pipelines
- Build Tools: Webpack, Babel, Vite
- Testing Frameworks: Jest, React Testing Library

Soft skills

- Problem-solving and critical thinking
- Strong attention to detail
- Excellent communication and teamwork abilities
- Quick learner with a passion for staying updated on emerging technologies
- Time management

Training/Certifications

- Data Analysis, CWW Tech African Training Program, 2023.
- Software Engineering, SAIL Tech Talent Development Program (Full stack), 2024
- Practical Software Testing (Ongoing), Udemy, 2024

Education

- Bachelor of Science in Hospitality and Tourism, Federal University of Agriculture, Abeokuta, Ogun State, 2014 – 2019
